HAND AND FEET CARE

CLASSIC MANICURE

50 MINUTES | \$50

Want to pamper your hands? It includes nail and cuticle care followed by a soothing massage with our signature blended lotion. To finish, nails will be polished with your choice of colour.

LUXURY MANICURE WITH PARAFFIN WAX

60 minutes | \$65

This rejuvenating hand and nail treatment starts with an invigorating sugar scrub to exfoliate dry surface skin. Cuticles are then groomed and hands and arms are given a soothing massage, followed by a nourishing paraffin wax dip to smooth and soften. Nails are then polished to perfection.

GEL MANICURE

50 MINUTES | \$65 | 2-WEEK MANICURE

If you're planning on spending time in the pool or are on-the-go and have no available "dry time," then Gel Polish is for you. It's gentle on your nails, dries quickly and can last up to two weeks or beyond. Wide selection of colours available.

REFLEXOLOGY CLASSIC MANICURE

60 MINUTES | \$80

Benefits of a classic manicure followed by reflexology. Hand Reflexology is equally effective as foot reflexology. By using the unique thumb and finger techniques on these hand reflexes, the body responds by relaxing, rebalancing, and improving blood circulation.

CLASSIC PEDICURE

60 MINUTES | \$65

Want to pamper your feet? Our service includes a sugar scrub to invigorate and exfoliate. Your cuticles are then groomed, followed by a soothing massage with our signature blended lotion. To finish, nails will be polished with your choice of colour.

LUXURY PEDICURE WITH PARAFFIN WAX

80 MINUTES | \$85

Indulge yourself with our premier service unlike any other. This relaxing 80-minute pedicure allows you to drift away and relax. Your feet will enjoy a therapeutic soak followed by an exfoliating sugar scrub treatment to remove dry skin. After cuticles are groomed, you will experience a de-stressing massage from your knees to your toes. A nourishing paraffin wax dip is then applied over your feet to smooth and soften. To Finish your nails will be perfectly polished with your favourite colour.

REFLEXOLOGY CLASSIC PEDICURE

70 MINUTES | \$95

Enjoy the benefits of a classic pedicure followed by reflexology. Reflexology is the practice of stimulating points on the feet that are thought to correspond to specific parts of the body. It is based on a reflexology chart or "zone theory" that maps out the body on the foot – it is not an everyday foot massage.

Reflexology involves kneading the soft fleshy ball of the foot, pulling on the toes, tracing around the heel, and pushing deep into the arch. These are just a few of the many small, intense movements you'll experience. While some spots may feel more sensitive than others, reflexologists will often say that pain indicates blocks in the energy pathways or weak organs and isn't due to the pressure of the touch.

30 minute | Price upon consultation

Clear + Brilliant is proven to be highly effective on patients who are looking for noticeable improvement of their pores and texture. Clear + Brilliant is an effective, FDA approved treatment based on fractional laser technology that addresses the early SIGNS OF AGING. The laser energy creates millions of microscopic treatment zones in your skin, replacing damaged skin with healthy, younger looking tissue.

PALOMAR STARLX 500™ FRACTIONAL TREATMENTS

Palomar Starlux 500™ utilizes fractional laser technology to deliver specialized pulses of energy into your skin and targeting texture, acne scarring, wrinkles, stretch marks or scars without causing harm to the surrounding skin. The natural healing process will begin creating new, healthy skin in the area that was treated. Over the next few weeks you will see continued improvement in both the coloration and smoothness of your skin.

LASER SKIN RESURFACING

Price upon consultation

With a series of treatments, fractional skin resurfacing uses laser energy to reach deep into the dermis. Deep skin penetration allows the Palomar Starlux 500™ to stimulate new collagen through the body's healing process which allows for gradual skin tightening, reduction of wrinkles and fine lines, softening of deeper frown lines, and improved skin tone and texture/acne scarring-scarring.

LASER SCAR TREATMENT

Price upon consultation

Laser breaks down scar tissue resulting in smoother texture and lighter colour. Scars including acne scarring, surgical scars, and traumatic scars can now be successfully improved.

LASER STRETCH MARK TREATMENT

Price upon consultation

The new collagen can leave the stretch mark smoother in texture and reduce the appearance of the stretch mark on the skin. Palomar Starlux 500™ is the only FDA approved laser to treat stretch marks.

THERMAGE® SKIN TIGHTENING

Price upon consultation

The Thermage procedure uses radio frequency energy to create a uniform heating effect in the deep dermis. This gentle heating tightens existing collagen and stimulates the production of new collagen. It reduces wrinkles and achieves brow lifting, cheek lifting, and jaw line lifting.

The skin tissue lifting and tightening is caused by immediate collagen contraction followed by gradual collagen tightening. The result is a more youthful appearance to lax and sagging skin.

Thermage is a patented mono-polar radio frequency technology which means it's energy is focussed directly beneath the skins surface smoothing out wrinkles, better defining facial features around the eyes, jaw and neckline, and even the smoothing and toning of laxity on the body. Thermage radio frequency energy works with your body, remodelling your collagen to help your skin get that smooth feel and youthful look you want.
