

ADDRESS THE VISIBLE SIGNS OF AGING IN MINUTES.

Thermage enables you to smooth, tighten and contour skin for an overall younger-looking appearance.

NO SURGERY OR INJECTIONS

Thermage is non-invasive, no cutting, no needles.

A SINGLE TREATMENT

One quick treatment (30 to 90 minutes depending on the treatment area) can deliver outstanding results for most patients.

FAST AND COMFORTABLE

Designed to deliver maximum results in a short, comfortable procedure.

LITTLE TO NO DOWNTIME

Go right back to life as usual - no need to miss work, fun, or avoid the sun.

LASTING RESULTS*

Results improve over 2-6 months following treatment and can last for years.

MULTIPLE TREATMENT AREAS

Treats wrinkles and loose skin on the face, around the eyes and on the body.

*Recommended by physicians as part of an annual rejuvenation maintenance program

"All the sit-ups in the world can't tighten loose skin, but the Thermage® system can."

REAL YOU.**

THERMAGE.

An original and still #1.

- > A pioneer in skin tightening since 2007
- > Developed a one-of-a-kind, patented radiofrequency technology designed to deliver comfort and outstanding results
- > Proven efficacy and comfort, with over 50 published clinical studies
- > Offered by over 2500 physicians in more than 80 countries

WHAT KIND OF RESULTS CAN YOU EXPECT?

Your skin can look smoother and more youthful as the underlying collagen is regenerated. Depending on what you have treated:

- > Tighter eyes with reduced hooding.
- > Elsewhere on the body, wrinkled, crepey or sagging skin can appear smoother.
- > You can also see temporary improvement in the appearance of your cellulite. Your skin will be smoother with reduced dimpling.

Results vary depending on age and skin condition. Talk to your doctor to see if Thermage is right for you.

RESULTS THAT MATTER.

FACE: Softened lines around the mouth, eyes, forehead; improved definition on jawline and under the chin.

Before Thermage

After Thermage

BODY: Improved contours and appearance of crepey skin; smoother skin on the abdomen and legs.

Before Thermage

After Thermage

EYES: Reduced wrinkles and decreased "hooding" for a more awakened look.

HOW IT WORKS.

As we age, the collagen that keeps our skin firm breaks down resulting in aging skin that contains fine lines and wrinkles.

A Thermage treatment uses radiofrequency technology to heat the deeper, collagen-rich layers of the skin.

The applied heat causes collagen to contract and encourages new collagen to start growing.

This helps create smoother skin after just one treatment with results that continue to improve for up to six-twelve months.
