Keratin is a protein and the major component in skin, hair and nails. In fact, the hair strand is comprised of up to 95% of Keratin hair proteins. Keratin acts both as an external protective protein in the cuticle and as an internal structural protein in the cortex. Keratin smoothing treatment smooths and softens, strengthens, add shine, repairs split ends, cuts drying time in half and and allows for wash and wear hair.

Brow tinting treatment will last 3-5 weeks and will enhance your brows, making them fuller and more defined.

BROW LAMINATION

60 minute \$85 | add brow tint \$16

If you have unruly, flat or downward growing hairs eyebrow lamination can change the direction of growth to create a more uniform look with a higher arch and a more desirable brow shape for up to 6 weeks.

LASH LIFT

60 minute | \$80

Lash lifting is a new generation lash perm that creates a dramatic curl using your natural lashes. The lash lift will last 4-8 weeks and is very low maintenance. We recommend this service for our clients who have naturally long and full lashes for the most optimal result, or using Eyenvy or Latisse to help lengthen and thicken your natural lashes. Perfect for clients looking for a natural, low maintenance look. Combine an eyelash tint to darken and add more drama to your already curled lashes.

lash extensions-

Lash Extensions are a glamorous new way to extend the length and thickness of natural eyelashes, and are a practical, convenient and beautiful alternative to the daily use of mascara. Unlike decades-old, traditional false lashes, lash extensions are the first innovation in lash lengthening that can be worn daily, without nightly removal and no damage to the natural lash. Because each tapered, synthetic lash is bonded to a single natural lash, the final result is of effortless glamour and difficult to detect even close up and completely customizable.

WET LASH-NEW SERVICE

Full Set 145 minute \$210 | book new set every 4 weeks

What sets wet-look lashes apart from traditional volume lashes, or classic lashes? Wet-look lashes are achieved by applying volume lashes (super fine eyelash extension fibers) without fanning them out (or very little). Depending on the lash weight used and the strength of your natural lashes, we'll pick up anywhere between 3-8 lashes, and apply them to a single natural eyelash without fanning. It gives a glossier and more heavily textured finish and gives the illusion of wetness – adding an extra level of drama to your eyes. In contrast, traditional volume lashes focus on creating a fuller, more voluminous look without the added shine, and feel and look

SKINCEUTICAL CUSTOM MEDICAL FACIAL

60 minute | \$175

Skinceuticals is the #1 U.S. medical skincare brand worldwide. SkinCeuticals’s range of skincare has proven to be highly efficacious in targeting and improving various skin needs, such as hydration, firming, brightening, acne, pore congestion and the prevention of pigmentation. SkinCeutical’s facials are not only great for skin maintenance, but are also designed to complement and enhance the results of aesthetic treatments. SkinCeutical highly-customizable medical facials cleanse, exfoliate, extract, and hydrate skin using a combination of medical-grade products. Your skincare professional will work with you to understand your specific skin needs and will recommend a customized medical facial treatment plan.

SKINCEUTICALS GEL PEEL

30-45 minute | \$150

These light peels are for damaged skin including discolouration and acne. Even though these peels are deeper and more aggressive than other facials, SkinCeutical's peels should still leave your skin renewed and refreshed. While minor flaking can occur the following day or two, these peels are formulated for improvements under the surface rather than damaging and peeling off the surface layers. They can also be applied to the back for people with back acne. Each 30 minute treatment contains a deep cleansing, toning, peel, hand and arm massage, vitamin application, and sunscreen application.

DERMAPLANING

60 minute \$149 | add on service \$85

Dermaplaning is a method of exfoliation that consists of using a 10 gauge scalpel to gently scrape off the top layer of dulling dead skin cells in order to reveal a smoother, brighter complexion. Dermaplaning removes all the dead skin cells and also the vellus facial hair, leaving the surface very smooth. Dermaplaning also allows for greater penetration of skincare products and creates a flawless canvas for makeup to glide on smoothly

HYDRAFACIAL MD™

60 minute | \$225

The award-winning HydraFacial MD™ is an incredible, non-invasive facial treatment that deep cleanses, exfoliates and extracts impurities from the skin through Vortex Suction™ technology. The process involves four basic steps to achieve incredible results. Firstly, the skin is gently cleansed and exfoliated with signature cleansers and soothing scrubs. This removes any makeup, excess impurities, and the first layer of dead skin cells. The next step in the HydraFacial MD™ process is extraction of impurities using the patented Vortex Suction™ technology. This allows for deep cleansing and eliminates any blackheads, spots and congestion. A mild acid peel is then applied to the refreshed skin, further exfoliating and brightening the complexion for a more radiant, youthful glow. Antioxidant serums and hyaluronic acid are then infused into the skin delivering a bright and smooth complexion, providing both immediate results and long-term benefits with no downtime or irritation.

ReGen Growth Factor Booster | \$70

Improve the appearance of skin tone, texture, and elasticity.

DermaBuilder Booster | \$70

Age-refining peptide complex that is designed to help smooth the appearance of finelines and wrinkles and enhance skin elasticity. DermaBuilder works by stimulating skin cells to produce more fibroblast, collagen, and elastin proteins. These proteins are crucial to skin health, playing a strong role in how the skin looks, feels, and behaves.

Britenol™ | \$65

is specially formulated to target dark spots and sun damaged areas. It is clinically proven to leave skin glowing and an even complexion. It contains Alpha-Arbutin derived from bearberry extract to brighten the appearance of dark spots, it also has Vitamin C with antioxidant properties and brightness.

What are other add-ons?

In addition to boosters, patients can choose from two additional extras:

Lymphatic Drainage

This therapeutic massage treatment utilizes light pressure and long strokes to increase the flow of lymph and reduce bodily toxins. Adding this to your HydraFacial can help with seasonal allergies, reduce inflammation, and remove toxic buildup.

Dermaplaning 30 minute | \$85

PRO 4 FACIAL

60 minute \$195 | Face And Neck \$255 |

Using the combination of our Diamond Microdermabrasion therapy, hot and cold treatment, ultrasonic therapy, and galvanic treatments we are able to create a relaxing facial that will help to target the appearance of fine lines, wrinkles and smooth any texture in your skin, while helping to reduce and mitigate blemishes, and even address the overall firmness of the skin by stimulating collagen. What sets this facial apart from others is the ability to treat the eye area with all of the treatments using a special tip allowing us to target tired eyes and stimulate collagen production. By using the hot treatment first, we are able to open the pores, accelerating the nutrient absorption helping the products to fully penetrate the epidermis, while simultaneously stimulating collagen production and cell renewal. Once the other steps of the facial are performed, we use the cold treatment to help close the pores soothing any skin irritation and protecting the skin from any potential irritants. By combining these treatments and therapies into one advanced, medical anti-aging facial we can create immediate results and leave your skin plump, and rejuvenated.

MICRODERMABRASION

60 minute | \$130

Diamond microdermabrasion is a non-surgical procedure that forces the regeneration of new skin while simultaneously stimulating production of healthy cells, collagen and elastin; which leads to the skin tightening and becoming thicker and firmer. A diamond tip is used to exfoliate the skin's surface by creating a gentle vacuum that removes dead surface cells and helps to loosen and extract blackheads, whiteheads, and other facial debris. Our clinic has some of the most state-of-the-art Microdermabrasion systems utilizing diamond-tips to restore a fresh radiant appearance of your skin. Suitable for all skin types.

MICRODERMABRASION WITH STEAM AND EXTRACTION FACIAL

60 minute | **Sale \$150 from \$165**

The deep cleansing facial is for anyone that needs their skin decongested from the build-up of make-up and dead skin cells. This facial consists of a double cleanse to remove all dirt, oil and dead skin. Steam is then applied to help open the pores and soften the skin which makes extraction a lot easier. Next microdermabrasion is performed to deeply exfoliate brighten and refresh dull-looking skin. Milia, blackheads and blemishes will then be extracted using a sterile pin and extractor tool. A deep cleansing mask is applied to draw out congestion and heal and treat acne and blemishes.

MICRODERMABRASION, GEL PEEL AND EXTRACTION FACIAL

60 minute | **Sale \$185 from \$199**

Micro with gel peel facial is for clients that will need extra extraction for blackheads, dead skin, oil build-up, acne, acne scarring and skin that needs more intense exfoliation. This facial consists of a double cleanse to thoroughly remove make-up, oil and dead skin cells, the skin is then steamed to soften trapped oil/ Milla trapped under the skin and makes extraction a lot easier. Microdermabrasion is then performed to remove the top dead layer of skin, exfoliate the skin and brings bold flow to the cells which instantly brightens the skin and leaves the skin feeling smooth. Next, a gel peel is used to help exfoliate the skin using a chemical solution which over the next week will make the skin look clearer, exfoliate scarring and help prevent further breakouts. Skin will then be extracted which will be a lot easier to get blackheads, pustules, blemishes and milia out of the skin. A deep cleansing mask will be applied along with led blue light to help kill bacteria, draw out any impurities still in the skin and help calm the skin, serums, moisturizer, SPF, eye & lip balm will be applied.

FOREVER YOUNG GLO FACIAL- INCLUDING DERMAPLANING, PEEL, & CELLUMA LED

60 minute | **Sale \$199 from \$230**

While dermaplaning and peels are effective apart, they work synergistically together. Dermaplaning helps to remove the outer layers of the skin including all peach fuzz hair, making the peel more effective. Since dermaplaning enables the acid solution to reach deeper levels of the dermis, the peel in a combination treatment is left on the skin for a shorter period of time than it is during a peel alone. Dermaplaning also removes facial hair allowing for greater penetration of skincare and creates a flawless canvas for makeup to glide on smoothly. To finish this treatment we have added Celluma LED- the energy delivered by the LEDs has been shown to enhance cellular metabolism, accelerate the repair and replenishment of damaged skin cells, as well as stimulate the production of collagen — the foundation of healthy, smooth skin. Research has shown that LED light therapy may help smooth skin texture, improve skin firmness and resilience, and reduce the appearance of fine lines, wrinkles, and superficial hyperpigmentation. laser hair removal-

Lasers

If you're looking for results, you'll want to make an appointment for a laser treatment. Removing hair, evening skin tone, and increasing collagen are just some of the ways lasers can be used to improve a patient's skin.

Lasers work by emitting a beam of light that is absorbed by a specific target in the skin. The light is absorbed by pigment in the hair follicle to heat it up and destroy it, so the hair does not grow back.

During the treatment pulses of laser energy is delivered to the area being treated which disables the follicle and prevents it from producing hair again. Over the course of several sessions, we target the hair follicles when they are in their "active" growth phase preventing them from coming back. Lasers work by emitting a beam of light that is absorbed by a specific target in the skin. The light is absorbed by pigment in the hair follicle to heat it up and destroy it, so the hair does not grow back.

CHEMICAL PEEL-IMAGE SKIN

30 minute \$175-\$250 | series of 3 \$450/\$675 | body area upon consultation

Chemical peels are used to resurface the outer layers of the skin and correct skin imperfections such as acne, wrinkles, and pigmentation. A unique blend of acids gently and effectively remove the dead surface layers of the skin resulting in tighter, smoother, brighter looking complexion.

COSMELAN® PEEL

15 minute \$1475 | includes home care and 3 celluma led light therapy

Cosmelan® is the world's leading hyperpigmentation treatment, with over 1 million delivered to date. Professional and intensive, Cosmelan® is designed to eliminate or reduce dark spots of melanic origin on skin, while unifying the skin tone and enhancing skin luminosity. Cosmelan is perhaps the most powerful skin lightening therapy available when compared to other depigmentation treatments currently possible on the market. The Cosmelan® depigmentation peel is a unique, multi-ingredient chemical procedure designed to significantly reduce up to 95% reduction of hyperpigmentation and skin discolouration.

CLEAR AND BRILLIANT LASER®

90 minute \$400/series of 3 \$1050 | add neck \$150

Clear & Brilliant® laser is gentle, yet incredibly effective, and refreshes your skin from the inside out. The laser works by creating microscopic treatment zones in the upper layers of the skin, replacing damaged skin with healthy tissue, for smoother more radiant looking skin.

THE ORIGINAL is optimized to improve your skin's texture and tone for overall resurfacing to help prevent and minimize the early signs of aging, including uneven skin texture and pore size, while improving the look of fine lines and discolouration.

THE PERMÉA offers visible enhancements in tone and radiance and increases skin permeability for brighter, more even skin tone with improved firmness and elasticity. This treatment integrates the elements of your skincare regimen to create comprehensive results.

Because of your smile, you make life more beautiful.

Through simplicity comes great beauty.

The MicroLaserPeel's beam is scanned over a treatment area to remove a very thin layer of the skin. Removing the top layer eliminates some of the damaged cells that can give skin a tired, aged look. As the skin heals, fresh cells grow and resurface the treated area. The result is healthier-looking skin, often with reduced wrinkles and improved color evenness.

MICRONEEDLING

90 minute \$370 | series of 3 \$1050 *body price upon consultation*

The InnoPen is a new state of the art microneedling device that induces collagen and elastin production which decreases wrinkles, fine lines, darkspots, stretch marks and acne scars. Microneedling results can include improved texture and firmness, as well as a reduction in scars, pore size, and stretch marks.

laser and skin rejuvenation treatments-

VASCULAR LASER TREATMENT

30 minute | *price upon consultation*

Vein treatments use advanced laser technology to target and destroy the blood vessels responsible for veins, causing them to visibly disappear. Since the laser targets the blood vessels within the vein, there is minimal or no damage to the outer layer of skin.

SKIN REVITALIZATION TREATMENT

60 min | \$399

Elite iQ's advanced technology helps people feel good about themselves again. Treatments help reduce the signs of aging and the damage caused by time and sun exposure.

The building blocks of smooth, youthful skin are high-quality elastin and collagen. With laser skin revitalization, the light pulses that penetrate the skin's underlying layers treat its support structure. The body's natural healing process then rebuilds the tissue with a firmer, more even texture.

Revealing clearer, more beautiful-looking skin.

Be good to your skin. You'll wear it every day for the rest of your life.

60 minute

Face \$550/series of 3 \$1500 | Neck \$350/series of 3 \$900 |

Decollete \$350/series of 3 \$900

The Forever Young® BBL utilizes various wavelengths of light that target and denature damaged cells in the skin, stimulating our body's natural healing process. When this occurs, pigmented damage such as sunspots and freckles get pushed to the surface of the skin and naturally flake off. The light also treats unsightly broken capillaries and diffused redness in the skin. The end result is a more even and bright skin tone. Another benefit of the Forever Young® BBL Photo-Facial is the stimulation of collagen production that leads to thickening of the skin, leaving you with youthful, rejuvenated, healthy skin. Forever Young BBL clients have seen great results on the face, neck, chest, hands, arms and other body parts.

SKINTYTE™ SKIN TIGHTENING

30 minute | \$375

SkinTyte™ laser treatment is a great non-surgical option for tightening the skin around the face and neck. SkinTyte™ utilizes advanced infrared technology to deeply heat dermal collagen while continuously protecting the treated epidermis with sapphire contact cooling for maximum safety and comfort. During treatment, the energy is delivered in rapid, gentle pulses to promote contraction and partial coagulation of collagen, initiating the body's natural healing process. Following the treatment, a new foundation of collagen is created to increase skin firmness and reduce the look of aging skin.

HALO™ LASER

120 minute

Face \$1399/series of 2 \$2500 | Face, Neck, Decollete \$2399

Sciton HALO™ laser is a special type of fractional hybrid laser that combines ablative and non-ablative resurfacing into one treatment. This type of treatment allows for a great improvement in skin tone, surface texture, redness and pigmentation. It is an excellent mild laser resurfacing in its own right and also an excellent maintenance treatment for those who have had aggressive laser resurfacing. The non-ablative component of the laser penetrates into the dermis (deeper layer of the skin) and removes pigmentation and coagulates blood vessels that cause redness- reducing overall brown and red discolouration in skin tone. It also stimulates new collagen production as the coagulated dermal tissue is replaced. This improves skin thickness and density, tightens the skin and contracts pores. The ablative component of Sciton HALO™ fractionally resurfaces the epidermis (outer layer) for improvement in overall skin quality. Laser treatment of this type also results in a reduction of abnormal cell types in the skin that can go on to form dangerous skin lesions.

THERMAGE™ SKIN TIGHTENING

90 minute

Face \$2500 | Eyes \$1800 | Neck \$2199 | Face & Eyes **Sale \$3500**

Tighten and contour with Thermage™ – no surgery, no needles, no downtime.

Thermage™ skin tightening treatments use radiofrequency technology to heat the deep, collagen-rich layers of your skin. This heat helps to remodel your existing collagen and encourages new collagen growth, a process called neocollagenesis. It is this new collagen that makes the skin appear firmer, tighter and improves the overall texture of the skin.

Thermage™ first pioneered the non-invasive treatment of wrinkles using radio-frequency energy over ten years ago, and to date physicians in over 2500 practices and 80 countries have treated patients. That's more than 1 million treatments for women and men of all ethnicities, each with their own reasons for wanting to look and feel younger.

Be your own kind of beautiful.

BEAUTY BOOSTER MICRO-NEEDLING WITH REDENSITY 1®

90 minute

Face \$625 | Face & Neck \$725

With two powerful technologies combined, the Beauty Booster Treatment provides the benefits of microneedling and the exclusive formula of Redensity . The Beauty Booster Treatment blankets the skin with essential nutrients to restore hydration, smooth fine lines and increase collagen production.

The injection of this unique product formulation into the dermis stimulates growth factors while providing hydration and nourishing components directly into the upper layer of the skin. The Vital Injector 2 technology also triggers fibroblasts; encouraging the production of new collagen and elastin in the skin. By coupling a needling treatment with small deposits of TEOSYAL® PureSense Redensity [I] you have the advantage of two treatments in one. The Dermo-Restructuring injectable helps to compensate for the natural loss of Hyaluronic Acid (HA) in the skin, particularly in the face and neck area and also assists in stimulating the production of collagen.*

WORLDPRP™
LEADING THE WAY

help prevent

forever young eg

The WorldPRP™ is combined with microneedling therapy (or collagen induction therapy) which causes micro-injuries in the skin to stimulate new collagen and elastin, the power duo of microneedling and PRP can improve skin texture and tone, minimize the appearance of pores, smooth wrinkles and fine lines and minimize the appearance of hyperpigmentation and scarring.

Platelet-rich plasma, commonly referred to as liquid gold or PRP, can be used to enhance cellular rejuvenation. Platelets are the cells in the blood that help tissue to heal and grow new cells. The PRP, injected into specific areas of the skin, acts as a matrix that promotes your own collagen to grow, regenerates tissue, and thus acts as to naturally smooth and tighten the skin. In this way, PRP softens wrinkles and creates smoother skin texture and tone.

HEALTHY SKIN TREATMENT

120 minute

Face \$1799 | Face, Neck, Decollete \$3289

If you're a patient with extreme discoloration and hyperpigmentation, there really is no better combo treatment than BBL® and HALO™. BBL® alone is already known for effectively treating and removing unwanted pigment by targeting it and causing it to rise to your skin's surface, where it naturally exfoliates off in the days following the treatment. But when you follow the treatment up with HALO™, it speeds up BBL's purging process. HALO™ helps to create direct pathways for pigmentation to release from the surrounding epidermis.

The other added benefit of combining the two is if you're not just looking to target hyperpigmentation, but stimulate collagen production, for tightening and toning and reduction of fine lines and wrinkles. This is where HALO™ really shines – quite literally as there is something known as the “HALO™ glow” to which patients refer. So when you combine it with the tone-evening properties of BBL®, your skin actually reflects light better, giving the appearance of skin that glows from the inside out.

ThermaGlow is one of our most powerful combination laser treatments that works to create smoother, younger-looking skin. It is our elite rejuvenation treatment that combines two of Forever Young's most popular and result-driven laser treatments, Thermage Skin Tightening with HALO™ to create the best results. Thermage works to improve skin firmness and tightness, resulting in a more youthful and fresh appearance.

Our HALO™, the world's first Hybrid Fractional Laser (HFL), has revolutionized resurfacing. HALO™ delivers non-ablative and ablative wavelengths to the same microscopic treatment zone, giving patients results they love without the discomfort or downtime they expect. HALO™ combines deep dermal rejuvenation with epidermal renewal for a combined synergistic effect you can't get with any other treatment. HALO™ creates beautiful results without the downtime of more aggressive treatments. HALO™ precisely targets years of damage to your skin, including: discoloration, sun damage, visible signs of aging, uneven skin tone, enlarged pores, poor texture and more.

RESURFACE+REHYDRATE

This results driven treatment provides the best of both worlds. Beginning with the hydrafacial treatment to prep the skin from outside in. The hydrafacial will prepare the skin by removing dead skin cells and extracting the pores. Microneedling will tighten the pores and resurface any acne scarring and texture from the inside out. The combination of these two world renowned treatments will reduce the chance of acne breakouts post microneedling and aid in reducing dryness. The topical antioxidant solution will penetrate deeper into the skin allowing further rejuvenation of the skin for a beautiful result. Cleanse, peel, extract, resurface, and hydrate. This treatment is appropriate for most skin types and condition.

As you age, your face begins to lose volume due to a natural combination of ageing, genetics, and gravity. If you're concerned about ageing skin, sunken temples or cheeks, slack jawlines, fine lips, and hollowed eyes, dermal fillers can help you turn back the clock. By restoring that youthful, plump appearance, dermal fillers offer natural results, so you can look the age you feel. Today's practices have given us highly advanced dermal filler products and techniques to prevent or restore lost volume, and minimize the telltale signs of aging.

BELKYRA™ is an injectable drug that can redefine the jawline by reducing and potentially eliminating, under the chin (submental) fat. Elimination of your double chin is a very appealing non-invasive alternative to surgery and the time needed for recovery.

BELKYRA™ consists of a synthetic form of deoxycholic acid which is a naturally occurring substance in our bodies. When injected into a targeted area, it destroys cell membranes, allowing the fat inside to be released and naturally eliminated from the body. After treatment, the area will no longer accumulate or store fat.
